INDEX TO VOLUME 19—1984

Index to Authors and Contributors

ANANDARAJAH, A. *Paper* Mode I and II fracture of adhesive joints, 173
ASUNDI, A. *Paper* Whole-field strain determination by Moire shearing interferometry, 77

CARTWRIGHT, D. J. *Paper* Biaxial stress effects in a reinforced cracked sheet, 61
CHRISTIAN, E. M. *Papers* Evaluation of creep crack C* integrals, 185. Influence of constraint on creep stress distribution in notched bars, 209
COX, H. L. *Book Review: Elements of mechanics and materials*, by Gerner A. Olsen, 145

DAVIES, G. A. O. *Paper* Notch sensitivity of angle-ply carbon fibre composites, 161
DOWRICK, J. *Paper* Biaxial stress effects in a reinforced cracked sheet, 61

ELLISON, E. G. *Papers* Evaluation of creep crack C* integrals, 185. Influence of constraint on creep stress distribution in notched bars, 209

FESSLER, H. *Papers* Multiaxial strength tests for brittle materials, 197. Stress analysis of some unsymmetric screwed connections, 111. *Errata*, 275
FRICKER, D. C. *Paper* Multiaxial strength tests for brittle materials, 197. *Errata*, 275

GAMBY, D. *Paper* An approximate numerical method for circular membranes under lateral pressure, 261
GHOMASCHI, M. R. *Research Note* Strain distribution measurement of interior grains due to forging, 71

HILLS, D. A. *Paper* Yield and shakedown states in the contact of generally curved bodies, 9. *Research Note* A note on the influence of residual stress on measured hardness, 135
HSIAO, C. *Research Note* Strain field in straight cylindrical shells due to applied forces on an attached shell. Part 1: no hole in the intersection region, 269
HUTCHINS, S. M. *Paper* Stress intensity factors for cracks at loaded holes – effect of load distribution, 81
HYDE, T. H. *Papers* Stresses in, and deformations of, swivel ring flanges due to bolt loading, 15. Comparison of finite element predictions of creep crack growth with experimental data, 103. Stress concentrations due to axial loading applied to axisymmetric internal projections on hollow tubes, 167

JANSSON, S. *Paper* Biaxial test facility for creep crack growth in damaged materal, 147
JUCKENACK, D. *Research Note* Interior warping measurement by holographic interferometry, 139

KARADENIZ, S. *Paper* A linear programming upper bound approach to the shakedown limit of thin shells subjected to variable thermal loading, 221
KHAN, A. S. *Research Note* Strain field in straight cylindrical shells due to applied forces on an attached shell. Part 1: no hole in the intersection region, 169

LAMPI, L. H. *Paper* An approximate numerical method for circular membranes under lateral pressure, 261
LING, L. H. *Paper* On angled crack initiation under biaxial loading, 51
LOW, K. C. *Paper* Comparison of finite element predictions of creep crack growth with experimental data, 103

MADDOX, S. J. *Paper* Aluminium alloy cylindrical jack body failure investigation, 121
MARCHANT, M. J. *Paper* Determination of the flexural stiffness of carbon composite plates by holographic interferometry, 249
MARSDEN, B. J. *Papers* Stresses in, and deformations of, swivel ring flanges due to bolt loading, 15. Stress concentrations due to axial loading applied to axisymmetric internal projections on hollow tubes, 167
MELLOR, S. G. *Research Note* A note on the influence of residual stress on measured hardness, 135
MEYER, M. L. *Book Review: Strain gauge technology*, edited by A. L. Window and G. S. Holister, 146
MONAGHAN, J. M. *Paper* An analysis of die filling in a forging operation, 237

OSTROWSKI, J. *Paper* Poisson's stresses in a fibre composite. I: analysis, 43

PAPADOPOULOS, G. A. *Paper* Interrelation between static and dynamic stress intensity factors and their evaluation by caustics, 127
PHANG, Y. *Papers* Photoelastic determination of stress intensity factors for single and interacting cracks and comparison with calculated results. Part 1: two dimensional problems, 23. Part 2: three dimensional problems, 35
PIGGOT, M.R. *Paper* Poisson's stresses in fibre composites. I: analysis, 43
PONTER, A. R. S. *Paper* A linear programming upper bound approach to the shakedown limit of thin shells subjected to variable thermal loading, 221
POST, D. *Paper* Whole-field strain determination by Moire shearing interferometry, 77

ROOKE, D. P. *Papers* Stress intensity factors for cracks at loaded holes – effect of load distribution, 81. Stress intensity factors for cracks at a double row of holes, 231
RUIZ, C. *Papers* Photoelastic determination of stress intensity factors for single and interacting cracks and comparison with calculated results. Part 1: two dimensional problems, 23. Part 2: three dimensional problems, 35

SACKFIELD, A. *Paper* Yield and shakedown states in the contact of generally curved bodies, 9
SHEN ZHEN *Paper* Notch sensitivity of angle-ply carbon fibre composites, 161
SIMES, T. R. *Research Note* A note on the influence of residual stress on measured hardness, 135
SNELL, M. B. *Paper* Determination of the flexural stiffness of carbon composite plates by holographic interferometry, 249
SRINIVASAN, R. S. *Paper* Large deflection analysis of clamped annular sector plates, 1
STROZZI, A. *Paper* Theoretical analysis of a segmented locking ring for shell-bottom connection in pressure vessels, 153

THEOCARIS, P. S. *Paper* Interrelation between static and dynamic stress intensity factors and their determination by caustics, 127
THIRUVENKATACHARI, V. *Paper* Large deflection analysis of clamped annular sector plates, 1
TORRANCE, A. A. *Paper* An analysis of die filling in a forging operation, 237
TURNER, C. E. *Book Review: Developments in fracture mechanics – 2. The mechanics and mechanisms of fracture in metals*, edited by G. G. Chell, 145

VARDY, A. E. *Paper* Mode I and II fracture of adhesive joints, 173

WAH, T. *Paper* In-plane thermal stresses in elastic plates, 97
WANG, JIONG-HUA *Paper* Stress analysis of some unsymmetric screwed connections, 111
WEBBER, D. D. *Paper* Aluminium alloy cylindrical jack body failure investigation, 121
WEBSTER, J. J. *Paper* Comparison of finite element predictions of creep crack growth with experimental data, 103
WEISSMAN, E. M. *Paper* Whole-field strain determination by Moire shearing interferometry, 77
WILL, G. *Paper* Poisson's stresses in fibre composites. I: analysis, 43
WOO, C. W. *Paper* On angled crack initiation under biaxial loading, 51
WU, D. *Papers* Evaluation of creep crack C* integrals, 185. Influence of constraint on creep stress distribution in notched bars, 209

Subject Index

A LINEAR PROGRAMMING UPPER BOUND APPROACH TO THE SHAKEDOWN LIMIT OF THIN SHELLS SUBJECTED TO VARIABLE THERMAL LOADING, *Paper*, 221
A NOTE ON THE INFLUENCE OF RESIDUAL STRESS ON MEASURED HARDNESS, *Research Note*, 135
Adhesive joints, fracture of, 173
ALUMINIUM ALLOY CYLINDRICAL JACK BODY FAILURE INVESTIGATION, *Paper*, 121
AN ANALYSIS OF DIE FILLING IN A FORGING OPERATION, *Paper*, 237
AN APPROXIMATE NUMERICAL METHOD FOR CIRCULAR MEMBRANES UNDER LATERAL PRESSURE, *Paper*, 261
Angle-ply carbon fibre composites, notch sensitivity of, 161
Angled crack initiation under biaxial loading, 51
Angular accelerometer, 74
Axial loading of internal projections on hollow tubes, stress concentrations due to, 167
Axisymmetric internal projections, axial loading of, 167

Beams, notched, 209
Biaxial loading, crack initiation under, 51
BIAXIAL STRESS EFFECTS IN A REINFORCED CRACKED SHEET, *Paper*, 61
BIAXIAL TEST FACILITY FOR CREEP CRACK GROWTH IN DAMAGED MATERIAL, *Paper*, 147
Bolt loading, stresses in, and deformation of, swivel ring flanges due to, 15
Brittle materials, strength tests for, 197, 275

C* integrals, 185
Carbon composite plates, determination of flexural stiffness of, 249
Carbon fibre composites, angle-ply, 161
Caustics, 127
Circular membranes under lateral pressure, approximate numerical method for, 261
Clamped annular sector plates, large deflection analysis of, 1
COMPARISON OF FINITE ELEMENT PREDICTIONS FOR CREEP CRACK GROWTH WITH EXPERIMENTAL DATA, *Paper*, 103
Composites, 43
  carbon fibre, 161
  fibre, 43
Connections, screwed, 111
Constraint, influence of, on creep stress distribution in notched bars, 209
Crack growth, 103
Crack initiation, angled, 51
Cracks at a double row of holes, stress intensity factors for, 231
Cracks:
  single, 23, 35
  interacting, 23, 35
Creep stress distribution in notched bars, influence of constraint on, 209
Creep crack C* integrals, evaluation of, 185
Creep crack growth:
  biaxial test facility for, 147
  finite element predictions for, 103
  in damaged materials, 147
Curved bodies, contact of, 9
Cylindrical jack body, aluminium alloy, 121
Cylindrical shells, 269

Damaged material, creep crack growth in, 147
Deflection analysis, large, of clamped annular sector plates, 1
DETERMINATION OF FLEXURAL STIFFNESS OF CARBON COMPOSITE PLATES BY HOLOGRAPHIC INTERFEROMETRY, *Paper*, 249
Developments in fracture mechanics – 2. The mechanics and mechanisms of fracture in metals, Book Review, 145
Die filling, analysis of, in a forging operation, 237

Elastic plates, in-plane thermal stresses in, 97
Elements of mechanics of materials, Book Review, 145
EVALUATION OF CREEP CRACK C* INTEGRALS, *Paper*, 185

Fibre composites, Poisson's stresses in, 43
Finite element predictions for creep crack growth, 103
Flanges, swivel ring, 15
Flexural stiffness of carbon composite plates, determination by holographic interferometry, 249
Forging:
  analysis of die filling in, 237
  stress distribution measurement of interior grains due to, 71
Fracture of adhesive joints, mode I and II, 173

Generally curved bodies, yield and shakedown states in the contact of, 9

Hardness, measured, influence of residual stress on, 135
Holes, double row, 231
Hollow tubes, axisymmetric internal projections on, 167
Holographic interferometry:
  determination of flexural stiffness of carbon composite plates by, 249
  interior warping measurement by, 139

INFLUENCE OF CONSTRAINT ON CREEP STRESS DISTRIBUTION IN NOTCHED BARS, *Paper*, 209
IN-PLANE THERMAL STRESSES IN ELASTIC PLATES, *Paper*, 97
Interferometry:
  holographic, 139, 249
  Moire shearing, 77
Interior grains, 71
INTERIOR WARPING MEASUREMENT BY HOLOGRAPHIC INTERFEROMETRY, *Research Note*, 139
Internal projections, axisymmetric, 167
INTERRELATION BETWEEN STATIC AND DYNAMIC STRESS INTENSITY FACTORS AND THEIR EVALUATION BY CAUSTICS, *Paper*, 127

Jack body failure investigation, 121
Joints, adhesive, 173

LARGE DEFLECTION ANALYSIS OF CLAMPED ANNULAR SECTOR PLATES, *Paper*, 1
Lateral pressure, circular membranes under, 261
Linear programming upper bound approach to the shakedown limit of thin shells subjected to variable thermal loading, 221
load distribution, effect of, 81
Loaded holes, stress intensity factors for cracks at, 81
Loading:
  axial, 167
  biaxial, 51
  bolt, 15
  thermal, 221

Materials, brittle, 197, 275
Measured hardness, influence of residual stress on, 135
Membranes, circular, 261
MODE I AND II FRACTURE OF ADHESIVE JOINTS, *Paper*, 173
Moire shearing interferometry, 77
MULTIAXIAL STRENGTH TESTS FOR BRITTLE MATERIALS, *Paper*, 197, *Errata*, 275

National Agency for Finite Element Methods and Standards, 74
National Engineering Laboratory, 74
NEL, *see* National Engineering Laboratory
NOTCH SENSITIVITY OF ANGLE-PLY CARBON FIBRE COMPOSITES, *Paper*, 161
Notched beams, creep stress distribution in, 209
Numerical method, approximate, for circular membranes under lateral pressure, 261

ON ANGLED CRACK INITIATION UNDER BIAXIAL LOADING, *Paper*, 51

PHOTOELASTIC DETERMINATION OF STRESS INTENSITY FACTORS FOR SINGLE AND INTERACTING CRACKS AND COMPARISON WITH CALCULATED RESULTS. PART 1: TWO DIMENSIONAL PROBLEMS, *Paper*, 23

PHOTOELASTIC DETERMINATION OF STRESS INTENSITY FACTORS FOR SINGLE AND INTERACTING CRACKS AND COMPARISON WITH CALCULATED RESULTS. PART 2: THREE DIMENSIONAL PROBLEMS, *Paper*, 35
Photoelasticity, 23, 35
Piezoresistive pressure transducer, 74
Plates:
annular sector, clamped, 1
carbon composite, 249
elastic, 97
POISSON'S STRESSES IN FIBRE COMPOSITES. I: ANALYSIS, *Paper*, 43
Pressure, lateral, 261
Pressure vessels, shell bottom connection in, 153

Reinforced cracked sheet, biaxial stress effects in, 61
Residual stress, influence on measured hardness, 135

Screwed connections, unsymmetric, 111
Segmented locking ring, theoretical analysis of, 153
Shakedown, 9
Shakedown limit:
linear programming upper bound approach to, 221
of thin shells, 221
Shell bottom connection, segmented locking ring for, 153
Shells, cylindrical, 269
Straight cylindrical shells, strain field in, due to applied forces on an attached shell, 269
Strain determination, whole-field, 77
STRAIN DISTRIBUTION MEASUREMENT OF INTERIOR GRAINS DUE TO FORGING, *Research Note*, 71
STRAIN FIELD IN STRAIGHT CYLINDRICAL SHELLS DUE TO APPLIED FORCES ON AN ATTACHED SHELL. PART 1: NO HOLE IN THE INTERSECTION REGION, *Research Note*, 269
Strain gauge technology, *Book Review*, 146
Strength tests for brittle metals, multiaxial, 197, 275
STRESS ANALYSIS OF SOME UNSYMMETRIC SCREWED CONNECTIONS, *Paper*, 111
STRESS CONCENTRATION DUE TO AXIAL LOADING APPLIED TO AXISYMMETRIC INTERNAL PROJECTIONS ON HOLLOW TUBES, *Paper*, 167
Stress effects, biaxial, 61
Stress intensity factors, 81, 231
photoelastic determination of, 23, 25
static and dynamic, 127
STRESS INTENSITY FACTORS FOR CRACKS AT A DOUBLE ROW OF HOLES, *Paper*, 231
STRESS INTENSITY FACTORS FOR CRACKS AT LOADED HOLES – EFFECT OF LOAD DISTRIBUTION, *Paper*, 81
Stress, residual, 135
STRESSES IN, AND DEFORMATION OF, SWIVEL RING FLANGES DUE TO BOLT LOADING, *Paper*, 15
Stresses, thermal, 97
Swivel ring flanges, stresses in, and deformation of, due to bolt loading, 15

Tensile testing machine, 74
Test facility, biaxial, 147
THEORETICAL ANALYSIS OF A SEGMENTED LOCKING RING FOR SHELL-BOTTOM CONNECTION IN PRESSURE VESSELS, *Paper*, 153
Thermal loading, variable, 221
Thermal stresses in elastic plates, 97
Thin shells:
shakedown limit of, 221
subjected to variable thermal loading, 221
Tubes, hollow, 167

unsymmetric screwed connections, stress analysis of, 111

Variable thermal loading, thin shells subjected to, 221

Warping, interior, 139
WHOLE-FIELD STRAIN DETERMINATION BY MOIRE SHEARING INTERFEROMETRY, *Paper*, 77

YIELD AND SHAKEDOWN STATES IN THE CONTACT OF GENERALLY CURVED BODIES, *Paper*, 9
